Subject: Letter of appreciation

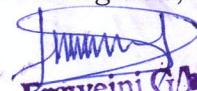

The Tigray women's association Mekelle, North Ethiopia acknowledges your unreserved financial support to underprivileged 30 Tigrayan female students for the past three years.

Because of your generous support 30 female students found in Tigray region, Degua tembien district are received around \$ 5.00 every month each. This amount of money is helping the students from poor rural families to cover their housing rent and teaching materials so as continue their high school education in the town.

The Degua tembien district women's association is strictly following the appropriate receiving and usage of the money put in the district bank. They (WAT) have reported to the head quarter the students are performing better from time to time in their academic performance and one student from the first recruited students joined university last year, **congratulations.**

We are therefore writing this letter to owe you a big thank you by the name of the students and their family. Stay assured we will strictly follow the appropriate utilization of the money you, your family and your friends are sending to support our citizens. We appreciate the support you are doing so far and we are on your side to support whatever needed to sustain your project.

Best regards;

Freweini G/et
Deputy Manager WAT
